**District Surpasses 100 Day Goal for 24<sup>th</sup> and L Street Site**

The District of Columbia government reached preliminary agreement with a developer for the development of the vacant site at 24<sup>th</sup> and L Streets, NW in Ward 2. Full business and legal terms will be negotiated in the upcoming months. In the Economic Development section of the Mayor's *100 Days and Beyond Plan*, the Mayor laid out a goal to release a request for a joint development partner for this site within first 100 days of the Fenty administration. The preliminary agreement surpasses the goal and will allow for the speedy development of this valuable property and tax revenues to the treasury of the District of Columbia.
